## ENVIRONMENTAL POLICY

**Charles Tennant & Co (Eire) Ltd.**, is fully committed to the policy of its facility to the highest standards and fully supports and adheres to that policy.

It is the policy of **Charles Tennant & Co (Eire) Ltd.**, to protect the local environment and to minimise the impact of the operation on the environment. To achieve this objective it is committed to:-

- . Adhering to all relevant statutory obligations and procedures which relate to its activities both on and off site.
- . Ensuring that all operations carried out by the company are done in a manner which protects the environment.
- . Providing and maintaining site facilities which are designed, constructed, operated and maintained to encompass the principles of good environmental practice.
- . Striving to achieve continuous improvement in efficiency of operations and environmental performance.
- . Providing a high quality product which incorporates environmental considerations at the design stage.
- . Providing environmental information to the community and responding positively to queries or complaints.
- . Providing adequate training to all employees on environmental awareness and resource management to ensure understanding of their role in assisting good environmental performance.
- . Preventing pollution, reducing waste and the consumption of resources, and motivating recovery and recycling, as opposed to disposal where feasible.
- . Conducting regular site audits and reviews of environmental performance and operating systems.
